**I'm looking forward to an exciting year
with the ASQ Statistics Division...**

*Daksha Chokshi
Pratt & Whitney Technical Fellow
ASQ Fellow
Chair of the ASQ Statistics Division*

I am honored to have been named chair of the ASQ Statistics Division for 2008-2009 and look forward to an exciting year working with all the members in this field. I have been passionate about learning all of my life, and this will be an opportunity to learn from all while sharing my knowledge and experience with others.

The Statistics Division promotes data-driven decision-making through the proactive use of statistical thinking and statistical tools, with special emphasis on applications for quality and productivity improvement.

We have a number of ways to share knowledge with each other, including the Statistics Division Web site (<http://www.asqstatdiv.org>), our three regular electronic newsletters per year, special publications focusing on leading-edge practical statistical applications, and our "How to..." booklet series discussing relevant statistical procedures in a concise, practical format.

To be effective, these tools depend on input from our members. I invite each of you to become engaged in our activities this year and make it a year of learning for all of us. I look forward to developing a strong and enduring partnership with you. Thanks.

Welcome to the ASQ Statistics Division's E-Zine. Our E-Zine will be a quick source of current news emailed to you monthly or whenever up-to-date news is available. We hope this to be an important member service providing timely information. The mailing list will initially be Stat Division members who have opted in to receive division publications.
